

## Drilling and dowelling machine, used, year 2009

Machinennumber: 403 985

# Gannomat Index 130 Logic

- Complete machining - drilling, gluing, dowel driving - in one work process
- Suitable for horizontal and vertical drilling
- High degree of automation for minimal set-up times
- Ideal for all dowel joints and dowel diameter control, dowels with faulty tolerances are sorted out

CNC controlled drilling, glueing and doweling machine for efficient processing of dowels with freely programmable drilling distances.

The CNC-controlled Index 130 Logic was specially developed for the efficient processing of dowels in commission and series production of carcass furniture, drawers, frame parts, solid wood slats, etc. With freely programmable drilling distances, the Index 130 Logic is the ideal complement to CNC machining centers and nest ring machines.

Dowel length	25 - 50 mm
Dowel	ø 8 (6/10/12 optional) mm
Dowel projection	7 - 20 mm
Working length CNC-controlled	max. 1 300 mm
Compressed air connection	6 bar
Weight	850 kg
